MEMORANDUM FOR: CHIEF, ADVANCED SPECIALIZED TRAINING SECTION

SUBJECT: Directive for an Evasion and Escape Staff Course

1. Some time ago, we discussed the need for an Evasion and Escape Course to be conducted by your Section for students who as staff officers will be responsible for the planning, direction, support, control, or exploitation of E & E operations either at headquarters or in field support bases. In order to meet the existing or anticipated need, the pending revision of the T/O of the Staff Training Branch will call for the additional position of a Chief Instructor for Evasion and Escape Operations.

2. Inasmuch as the E & E problem could soon require great priority in our Staff Training, it seems advisable to start the conduct of such a course as early as feasible. As soon as the expected full-time and part-time expert personnel is available, I would like your Section to go ahead with the preparation of such materials and the arrangement of such details as required by the course.

3. Attached are in a very tentative form some suggestions for consideration in the planning of an E & E course.

  
Chief, Staff Training Branch
